

TRAAS

TEAMS RECORDING AS A SERVICE

BUILT FOR CONTACT CENTERS, AI DEVELOPERS, AND MORE...

for Microsoft Teams

PRODUCT SUMMARY

Numonix's Microsoft Certified Teams Recording as a Service (TRAAS) is designed for developers, integrators or large organizations seeking a robust and easy-to-use, compliant, cloud-native recording solution.

With Numonix TRAAS, you can effortlessly record any Microsoft Teams interaction and access high-quality media in a secure, centralized cloud-native solution.

POWERING AI TO FUEL BUSINESS INTELLIGENCE

Powerful architecture allows you to utilize underlying capture data, eliminating the complexities of certification, maintenance, and support. You can focus on leveraging the captured data to fuel your business intelligence.

FLEXIBLE & QUICK DEPLOYMENT

Choose between a hosted and managed environment or deploy and store your recordings in Azure BLOB storage or S3 buckets, giving you the flexibility to store and utilize the data wherever you require, ensuring maximum flexibility and control.

SIMPLIFIED CERTIFICATION

Leave the certification, maintenance, and support to us. Our solution is certified and compatible with Microsoft Teams, ensuring compliance and reliability. Numonix's TRAAS solution is fully managed, freeing you from technical burdens and enabling you to focus on what matters most.

TRAAS | VCAAS

- ✔ **\$50,000** for Microsoft Compliance Recording Program fee
- ✔ **\$50,000** for Microsoft Premier Support
- ✔ **\$15,000** for Microsoft required technology audit via third party
- ✔ **\$20,000** for Microsoft mandatory M365 security assessment (*your headcount – allocated. No external cost*)
- ✔ **\$180,000 x2 = \$360,000** estimate for two dedicated recording engineers
- ✔ **\$90,000** estimate for half a headcount for a product manager handling the Microsoft relationship
- ✔ **\$60,000** estimate for a support engineer

TOTAL:

\$645,000

Total annual cost estimate to build and maintain your own solution

Time to deploy is about **six months.**

- ✔ **\$5,000** for NRE (*setting up the first bot*)
- ✔ **\$2,500** for monthly service fee
- ✔ **As low as \$0.25** per hour

TRAAS:

\$30,000

Estimated annual cost as low as \$30,000.

Time to deploy is about **24 hours.**

**Cut the cost.
Cut the complexity.
Keep the compliance.**

▶ POWERFUL ARCHITECTURE

Powerful architecture allows you to utilize underlying capture data, eliminating the complexities of certification, maintenance, and support. You can focus on leveraging the captured data to fuel your business intelligence.

Choose between a hosted and managed environment or deploy and store your recordings in Azure BLOB storage or S3 buckets, giving you the flexibility to store and utilize the data wherever you require, ensuring maximum flexibility and control.
